Find your GPS and Display

**DriveBy** – Your potential buyer is outside your listing looking at your **FOR SALE** sign. They want to see and know more. **DriveBy** finds and plays the property's video by pinpointing their location on their mobile's GPS. They get to **See Inside Now!**

**DriveBy** makes it easy to instantly view the property, and then encourages the potential buyer to contact you. It's great for your brand and it displays your details on the buyer's mobile phone. One handy feature is that a buyer can easily call, email, request more information or organise an inspection straight from their mobile – with just one press from **DriveBy**.

### Buyer Experience

Once outside, or nearby a property that is listed **FOR SALE**, they simply key in the URL [www.driveby.info](http://www.driveby.info) on their smartphone device.

A mobile-friendly website will appear – **DriveBy** – and on this home page is the tab

**Geolocate NOW** Just **PRESS**.

GPS identifies the property and presents the Video to watch!

\* DriveBy signboard, stickers or artwork is available. Contact Us. The DriveBy service is included as part of your REvid Video package.

**PLUS, many more Features...**
